ROUTE MAPS

The following are web-links to www.ridewithgps.com where you’ll find the 2018 Annual Tour route maps.

Click on the link to view each day’s map, with separate versions for the four stages featuring sealed or unsealed road options.

Viewing each map is simple as you use the arrows to navigate in any direction, as well as use the scale to zoom in and out. You can also look at them using satellite imagery and view the route profile. With the right software you can also do a flyover of the route, from a bird’s eye perspective. This is great for viewing the route in the context of the surroundings.

What are not marked on these maps (yet) are the refreshment stations and lunch stop locations. These will be added in due course.

In the meantime please email office@bikesa.asn.au with any queries about these maps and go to www.bikesa.asn.au for more information about the Annual Tour.
