Welcome to the Bike SA Flinders Escape for 2022, Adelaide Mobile Bicycle Service (AMBS) is excited to provide mechanical support for this event.

My name is Darren Wing and I will be looking after you and your bike for the week.

I will assume that you have had your bike serviced before the start of the Tour. I will be bringing a limited workshop worth of spare parts with me, but please understand that due to the mobile nature of the event, choice of parts will be limited. If you have something unusual or exotic (e.g. a small wheeled Bike Friday or recumbent, or an 11speed Super-Record drive-chain) please let me know before the event so I can have spares handy, or you could bring your own. Regardless of any limitations I will do everything in my power to keep you running.

I recommend that every rider brings the following items with them each day whilst out on the route:

- A spare derailleur hanger, this is a small sacrificial part between your frame and rear derailleur. They are bike specific and it's unlikely that I will have the correct one for your frame as there are millions of variations.
- A spare tube and a second one in your luggage
- Tyre levers and a Puncture patch kit
- A Multi-tool and a Pump

While out on the ride if you have a minor mechanical issue, I will help you out on a no charge basis or if it is a bigger issue a small fee may apply - we will discuss cost at the time. If you require repairs and/or a service, you will need to book your bike in for an evening service. Major services or work will be charged at regular workshop prices plus parts. Please be aware that I expect for you (or your traveling partners) to know how to change a tube, and I will charge a minimum service fee to perform this task for you.

If you notice strange noises or feel unsure about anything to do with your bike at any time, bring it over to the service tent as early as possible so I can diagnose any problem before it becomes an emergency.

We will be running a 'store' at the campsite where you can restock spares and buy some goodies.

Any queries about our services before the event, please contact Darren adelaidembs@gmail.com

During the event, for services, you can contact me (Darren) on my mobile 0466 343 885, or speak to one of the ride marshals, and they can put you in touch with the service team.

The most important thing during this event is for you to have fun and for me to keep you rolling!

Enjoy the ride, and thank you for choosing AMBS for your cycling solutions.
